2255 Meyers Avenue, Escondido, California 92029

MAAS-ROWE BELLWETHER CARILLON WITH COLOR TOUCH SCREEN AND DIGITAL SOUND

A Maas-Rowe *Bellwether Carillon* has been installed here using the same equipment cabinet, amplifier, and tower speakers as the church's older Maas-Rowe carillon.

The 10.6" color touch-screen makes the carillon easy to use when setting up the schedule or starting bells ringing for an event.

Bell-rings include High, Medium, and Low pitched Swinging Bells for Calls-to-Worship; a three-bell Angelus; Westminster Chimes and Hour Strikes; Pealing Bells; and a low pitched Toll Bell.

"Extra" Schedules for Religious Seasons, Holy Days, and Holidays are built in. Just set them up once, and these schedules will automatically activate on the correct dates in future years - even schedules that fall on different dates yearly such as Lent and Easter.

Set up your own "playlists" of carillon music and schedule songs to play at random from them. Set up "Event Lists" of Bell-rings and/or Carillon Music that will play in the sequence desired.

An optional Hand-Held, Wireless Remote Control can start/stop a Wedding Peal; Funeral Toll; Call-to-Worship Bell; Carillon Music or Sanctus Bell.
